Subject: AIRN v. Torres and Media Effective

Importance: High

Aneca,

I have attached hereto, a link to the documents that we are providing in connection with the Accounting. The documents are not password protected so you can easily access them. As I told you, we do not believe Javier's wife or children are subject to the accounting order, having had no contractual relationship with the Debtors, and having received their transfers, not from the Debtor directly, but from their father or Media. The other Torres family members had no connection to the Debtor. If you disagree, I have continuously said in writing that I was willing to get on the phone or have a conference with the judge to clarify the directions in the order. To date, I have heard no response. I believe this Accounting complies with the court's direction in the order.

This Accounting goes back to 2018, is for Media Effective and Javier Torres and provides: (1) a copy of the cancelled check, and (2) invoices for each media purchase. You will see that the money transferred for which you alleged in your Complaint was paid to Media Effective and not used to buy media time, is fully accounted for, and was in fact spent on advertising.

I am again asking that you remove the allegations that Mr. Torres aided and abetted in the alleged Ponzi scheme. You are essentially calling him a criminal, which is untrue. You have absolutely no evidence to support that, any more than you can say Bloomberg, MSNBC or any of the networks aided and abetted the wrongdoers. Mr. Torres, like the investors, and the government, and the broadcasters, and all of the other third party vendors of the Debtor, was unaware of any bad acts by the Debtors. The allegations are defamatory. You can't say whatever you feel without facts. My client is reserving the right to bring claims for these allegations.

If you have any questions or issues after you have reviewed these documents, let me know.
